WORK EXPERIENCE

Professor Ayodele Ayodeji Design Competition (P.A.A.D.C), University of Lagos

Frontend Developer Volunteer

2024 - Date

- Collaborated with the rest of the development team to revamp the website and make it more responsive.
- Building more software solutions that will be useful throughout the programme.

Engineering Career Expo, University of Lagos

Frontend Developer Volunteer

Lagos, Nigeria
2023 - 2024

- Learned and implemented new programming languages such as next.js to meet evolving project requirements.
- Collaborated closely with the UI/UX and backend teams to enhance the website and develop software solutions such as URL shortener and much more.
- Organised and documented project resources to ensure that the development team could easily access the necessary materials for their work.

PERSONAL PROJECT

CareFinder App ([View project](#))

Tools used: React.js, CSS and Firebase

- Developed a user authentication system with firebase to ensure secure access.
- Implemented a search feature that allowed users to find nearby hospitals based on their location.
- Added a feature to allow users post reviews about their experiences with various hospitals.
- Aimed to improve healthcare access by helping users find and choose hospitals based on location and others's feedback.

EDUCATION
